

TS DRYER

SILK-SCREEN DRYING CABINET

TS 2 Model shown

The **TS DRYER** from Polygraph has been specifically designed for drying your silk screen frames during the screen making process. This screen drying cabinet comes in four standard sizes and it features; digital temperature control, filtered air circulation, large screen frame storage area, and all welded steel construction with powder coated paint.

The large drawers pull completely out for full access to your screen frames. The large top surface is ideal for use as a work table in your screen room and the construction is SOLID to say the least! If you have one size screen frame these dryers can be special ordered for virtually any application.
